	90%	80%	85%	100%	86%	-		
USF Cumulative Associate Degree Graduation Rate/ Expected Level of Achievement								
	46%		51%		*			

* University graduation rate for associate degree programs are calculated on May, August and December graduation dates.

**Completion rate calculated by subtracting students who withdrew for personal reasons from the cohort

***Data pending

Completion rate is a calculation that indicates the number of students who complete the nursing program in the amount of time equivalent to 150% of the program length. For the USF ASN Program, this is three years. The University of Saint Francis also calculates a completion rate for all associate degree graduates. The completion rate calculation takes into account variables including: academic dismissal, student withdrawal for personal reasons, and those who are still enrolled in the program.
